WHOLESALE 1958

There's nothing like a planting of gay garden mums to pep up your fall sales, and bring customers to your sales yard. They can be grown on a small space and sold right from the spot, or potted as they start to show color. You should add interest to your planting by putting in a few new varieties each year.

There is a growing interest in daylilies (*hemerocallis*) for garden planting, and a few choice varieties for your sales yard will boost your sales. They may be carried along in tan paper pots and sold in bloom if you wish. We grow more than 400 varieties of these, so if you do not see what you want listed, write for prices. Siberian iris and echinops Taplow Blue are good for both garden effect and cutting, and may also be carried in pots.

TERMS: Cash, or 50% cash, balance C.O.D. Please add 50¢ for packing if order is under \$5.00. Plants shipped by express collect. Small orders can be shipped by parcel post if postage is included; any amount in excess will be refunded. You may order 25 of one variety at the 100 rate.

Prices are for strong, outdoor-grown rooted divisions. All stock offered subject to prior sale, and crop conditions. Shipping will start as soon as weather permits, usually the last of March, and continues through June. Orders will be shipped as near as possible to the time wanted. Our field divisions are from plants carefully watched and rogued through the bloom season for anything not true to name or up to standard in appearance. We strive to send out healthy, true-to-name divisions, also to rectify, so far as possible, any errors.

The first letter after the name denotes the type of flower: D, double; SD, semi-double; S, single. The second letter pertains to bloom season: VE, early September or late August; E, before Oct. 1; M, Oct. 1 to 15; L, Oct. 15 on. Dates are only approximate, as weather, time of planting, moisture and amount of sunshine can all make a difference in the time of bloom.

# GARDEN CHRYSANTHEMUMS

		Per 10	100
ADMIRAL, D-ML.	Tall, lovely deep rose-red	\$1.00	\$6.00
ALERT, D-E.	Fine deep purple, full double long-lasting blooms	1.00	6.00

# POTTING MUMS

Following is a partial list of varieties we have found very good for early potting:

Apricot Glow	Early Lavender	Nanook
Arbutus	Early Robin	Nashua
Autumn Beauty	Fairbow	Nye's Favorite
Becker's Dahliamum	Geo. Luxton	Orchid Helen
Biretta	Glacier	Orsona
Butterball	Gladness	Pigmy Gold
Cecil Bede	Golden Carpet	Pomponette
Chorale	Golden Mound	Purple Carpet
Delight	Harbinger	Reflection
Early Crimson	Lemonna	Rouge Cushion
Early Gold	Lemon Drops	Rusty Red
Early Harvest	Lucky 13	Sept. Sunshine
Early Joan Helen	Golden Russet	White Cloud

The following we have found fine for midseason potting:

Andrew	Kathleen Lehman	Santa Claus
Charm Spoon	Ladies' Choice	Sequoia
Gladwin	Lee Powell	Successor
Golden Gopher	New Hampshire Bronze	Tiffany Rose
Holiday	Olive Longland	Victor Ries
Jackie	Orchid Spoon	Winnetka
Jayeff	Ming	Yellow Winnetka

## How We Grow Them -

Transplanting mums into pots (tarpaper pots are very popular for garden mums) while they are in bud and bloom is a very easy way to produce nice plants at small cost.

The last part of May or early June (late June or early July is still not too late for good plants) the divisions are set into rows 18 to 32 inches apart (according to space available) and 16 to 24 inches in the rows. Be sure and plant them deep, so the soil is up around the green part of the stem. A common cause of failure is setting the plants too shallow.

If the soil is well enriched they will need little other fertilizer at this time. Give a side dressing of fertilizer (5-10-5 is good) every six weeks and keep well irrigated. Pinching back once or twice will help to make nice shaped plants. It is best not to pinch after July 15.

Potting begins any time after they start to show color. Even plants in full bloom will move well with a little care. Garden mums usually have a fuller root system than indoor mums. Water well and shade for a few days.

# DAYLILIES (*Hemerocallis*)

(Prices are for strong, bloom-size field divisions)

	10	100
AMARYLLIS, 36". Large golden yellow, June-July	\$2.00	\$15.00

# ECHINOPS TAPLOW BLUE

ECHINOPS TAPLOW BLUE--This is an outstanding globe thistle. Globes are larger and of a blue much deeper in color than the ordinary echinops ritro. It blooms on stalks about  $3\frac{1}{2}$  feet tall in July, and if cut back when through blooming, it will bloom again in September on shorter stems. Very effective in the garden, and a long-lasting cut flower. Strong divisions from the field, 10 for \$2.00; 100 for \$15.00.
